THE APPLICATION CODE RIGHTS BELONG TO "TECHNO DEVELOPERS GROUP".

Terms of Service
- The quotation is valid if the contract is finalized within 30 Days from the Quotation.
- The duration for the project mentioned in the modules is subject to the receipt of all the contents, materials and images from your side.
- The quoted duration for the modules is for the first working demonstration of the prototype only. It does not include the delay in confirmation, finalization of layout, approval or fine tuning requests. Extension of project duration due to the delay in client side confirmation, delivery of required documents by client, finalization of project or submission of testing report from client side will cause the project costing to be increased.
- Those which are not included in the quotation will be treated as upgradation.

- After approval of new layout any Change of design, change in action pages or process and functionality, logical alteration, changes affecting table structure and DB relationship of dynamic modules, changes in the website structure-colour-style, increasing the space, putting extra link or page enhancement of feature in dynamic system or new modules will be treated as upgradation. Upgradation is totally different than updatation and it's fully a chargeable matter. The charge of upgradation is subject to discussion.
- Technical problem may cause the site's unavailability. Any kind of complain regarding the website, maintenance, web promotion and service has to be registered at http://helpdesk.technodg.com. The complain registration date and time will be treated as starting time of problem.
- Our Payment Term is described below.
- Any updates or bugs have to be reported within one month of implementation to get fixed. After that it will be a chargeable matter. The charge of the service will be subject to discussion.
- The system will be hosted on shared server where the Memory & CPU resources of the server is limited (CPU Usage upto 5% of the shared server, I/O Usage upto 512 KB/s, IOPS upto 512, Virtual Memory Usage upto 1000 Mb, Entry Processes upto 20, Physical Memory Usage upto 512 Mb, Number Of Processes upto 100). If the system requires resource upgrade then the same may have to be shifted to Virtual Private Hosting with upgraded resources which costs extra and subject to discussion.
- Server resources are provided under no-spam policy only. Any spamming attempt may cause discontinuation of services.
- All rates are in Indian Currency. Taxes and levies extra as and if applicable.
- All discussions and exchange of ideas and instruction is to be arranged online through Email / Chat.
- All disputes are subject to the exclusive jurisdiction of Siliguri, West Bengal, India.
- For other Terms refer to http://technodg.com/tos

Payment Term: 50% Advance & Rest 50% before activation of website online.

Payment Modes :
- Through Online Banking at **http://billing.technodg.com**
- NEFT / RTGS / IMPS / Bank Transfer / Cheque / DD at -

   d) Automated or Manual SMS queue processing
   e) Supports National and International SMS Gateway
   f) SMS reports and logs
   g) Documentations will be required get Sender approvals (As per TRAI Criteria)

5. **SMS Pack (10000 Free SMS on Transactional Route for one year)**
   a) Documentation required as per TRAI Norms
   b) Activation can be done in 3-5 business days after approval on Documentations

Terms of Implementation of Application

- The system will be a shared system hosted in a third-party server and all rights of the online software, system belongs to Techno Developers Group.
- One Admin User will be allotted with the permission of License to use. Extra Admin User @ Rs.2,500/- per user (Licence to use)
- How to use the System will be demonstrated online in presence of the Authority once for free.
- Eight Hours Training programme will be arranged as per mutual discussion with the authority. Extra demonstration will incur charge which is subject to discussion.
- Manual of how to use (Digital Copy along with one Print Copy) will be provided for free.
- Post Implementation any enhancement and training will be charged @Rs.2500/- per man day + OPE extra.
- The system is developed to support a maximum of **500 Applications** for a single phase in one admission session once initiated, which shall enable filling up to **300 Seats** in maximum **2 Stream & Courses** with Merit Lists, Counselling calls and Admission processing of any institute along with necessary payment options and reports/exports.
- System is to cover and run for only one session of 1st year or 1st semester admission session. The project cost does not include multiple sessions as restarting or reopening of admission session.
- Next year Renewal or AMC charges will be on same project cost excluding any free services offered with first year implementation (as mentioned above) payable in advance inclusive of product and license cost. AMC charges may change in coming years depending upon then-current market scenario.

01.   SPECIAL FEATURES IN OUR SERVICES

- Emergency Server Support over phone 24x7
- e-Mail and Phone support for 9:30AM-6:30PM IST (excludes Sundays & Holidays)

02.   INTRODUCTION

"Online Admission System" is an aim to develop an internet based application that can be accessed from anywhere using proper authentication to automate the need of this academic institute's admission process. The system has two tier of accessing model, i.e. Administrator and User. The authorised representation from this Academic Institute (client side) is termed as "Administrator", who is to manage and monitor the process of the system. The Student who are the candidates seeking admission in this Academic Institute is termed as "User", who needs to register themselves in the online system and proceed for the admission process by applying online.

03.   OVERALL OBJECTIVE

The project is an initiative by the Govt. of West Bengal to formulate and streamline a user-friendly environment for the students to create a hassle-free admission process as well as for the Academic Institutes (referred as client henceforth) whose goal is to automate the Academic Institute's admission structure and its related operation and functionality.

The objective of the initiative is to provide support to the administration and admission seeking candidates by providing a faster, transparent and easy way of keeping records and use them for reference and further proceedings. The Client's goal is to realize a better and quicker way of service to its associates and maintain proper records to ease the work process.

The Scope is to develop a web based system which can act as a Database Management System for the Users as well as Administrator for -
- Providing networked and updated information and documents to the associates
- Better, Faster and Streamlined service to fetch data and records for future reference.
- Reaching potential sectors.
- Easy to use
- Time Management

04. SCOPE

The application will be developed in English. The system will be restricted to the registered Users / Admin. Users / Admin will be prompted to login first to access any area. It is expected that the user registration form will record Personal Profile and basic contact details. A 'forgot password' feature would enable users to be reminded of their password without Web Admin staff intervention thereby reducing administrative time.

Techno Developers Group will implement a computerized system described in the "Page 1 to 3".

The quoted duration for the modules is for the first working demonstration of the prototype only. It does not include the delay in confirmation, approval or fine tuning requests. Extension of project duration due to the delay in client side confirmation, delivery of required documents by client, finalization of project or submission of testing report from client side will cause the project costing to be increased.

This System will have two main sections:
- The back-end database [Storing Engine where the Data are to being recorded].
- The front-end to view [Data Process, navigate & fetch the system data].

05. TECHNOLOGY FRAMEWORK

The System is developed using the following either –
- Front - end: HTML/ CSS
- Server side Scripting Language: PHP 5
- Back-end: MySQL 5.5
- Web Server: Apache on Linux Server.
- Client side Scripting Language: Java Script / XML / Flash / Ajax
- Mail Sending: Script/ SMTP Mail

06. PROJECT EXECUTION METHODOLOGY

- The project milestones sheet will be prepared, which will include the steps to proceed with the implementation & required changes. On completion of each stage, indication of the same will be given to the Client on the progress done and feedback will be taken on the development done.
- Any Changes required during or after the project duration will be intimated to Techno Developers Group In-Charge through the digital or hard copy order form, which will be provided by Techno Developers Group. Techno Developers Group would conduct the impact analysis of the same and intimate the effort and duration required if the changes are of extreme nature or if they fall out of the project scope. Techno Developers Group however would be committed to complete the implementation as per the scope of the work defined in Appendix 04.
- The project will progress in a phased manner, which is explained below:
  - Demonstration of the system functionality as per work scope mentioned in Appendix 04.
  - Required changes and alteration of the System to be noted
  - Based on the Requirement Study and Documentation the extra scope of work and duration of the same will be intimated to the authority.
  - Proceed for the work as per approved scope of work as per terms of service and payment.
  - Depending upon the requirement stated the proposed look / layout will be submitted and the work will be processed on basis of this as per approval.
  - Database and System Architecture design will be planned as per approved alteration.
  - Coding - It will be done on the basis of module opted and change management planned as mentioned in the project milestone sheet.
  - Testing and Activation of the System online.

07. ROLE OF THE CLIENT

- The client will appoint one Project Coordinator who shall be a one-point contact for Techno Developers Group in all matters pertaining to the System development. He/she shall be the responsible for approval.
- The approval/feedback should take place within 2-3 days from the day when any material/design/developed project has been submitted for approval/feedback.
- In case of any special requirement and upgradation the client will have to procure all necessary software/hardware for the support of the System developed. This would include Database Server/Registering of components/Hosting etc.
- The client will provide the necessary text, content, links etc. in softcopy format via electronic media that they intend to keep on the System before the Development of the System.
- The Client would provide the content to Techno Developers Group for the System in English only. The client will also provide all the translated version of any content or documents of other language in English only for the System, which would include the contents, labels etc.

For the requirement study phase the client will identify a key user who has the knowledge of the requirement of the system and would interact with the technical team of Techno Developers Group to finalize the requirements. The designated person from the client will be responsible in providing all relevant information, report formats, test data, reviews/ feedbacks of interim and final delivery

08. ROLE OF TECHNO DEVELOPERS GROUP

- Techno Developers Group shall be responsible for implementing, testing of the functionality of entire System until it matches the Client requirements, which have been agreed upon by both the parties.
- Techno Developers Group shall deploy (upload) the System at the server after the initial development is carried out at Techno Developers Group.
- Techno Developers Group would identify a Project Manager who would liaise with the Point of Contact from client for all requirements and clarifications.
- Techno Developers Group will provide a layout design of the System which the client will need to approve with the instruction of suggested changes if any to use as the front screen for the development of the System.

09. TESTING SCHEDULE

- It will be ensured by the client that the acceptance testing of each deliverables and the report of any bugs to Techno Developers Group is done within 3 Days of the delivery to ensure the timely bug fixing.

10. DOCUMENT AND KNOWLEDGE TRANSFER

- All communication/ documents/ Knowledge transfer will be done with either party in English.
- Any transfer of the documentation from either side will be done in MS Word or MS Excel sheets in soft copy formats via electronic media. Document standards will be made available.
- For communication, the project managers will use e-mails, GTalk Messenger and SkyPe chat modules (This should preferably be done every alternate day).
- Complete Contact information of the project managers from either side will be made available upon the start of the project.

11. SUPPORT

- Project shall be considered as completed and accepted once the System/site/application is operational on live server (internet) for more than 5 calendar days.
- After deployment, should there be any bugs in the application; Techno Developers Group will fix these bugs free of charge for the next one month. The terms for the bug fixing during this period would include the following:
  - Techno Developers Group would be committed to complete the development as per the scope of the work defined in this proposal under Appendix 4 and will rectify any bugs that occur in the application.
  - A bug would be defined as those which conflict with the work done by the team as per the scope documented in this proposal and undertaken by Techno Developers Group for development. In case of conflict, the client will have to produce documentary evidence of the scope along with the communication of the same to the development team at Techno Developers Group done during the period of the contract. All such points reported in the support period without any documentary evidence would be deemed as Change Request.
  - Techno Developers Group will not be responsible for any changes done on part of the client to the system (source code or database), which may be the cause of the error after the site has been deployed.

- □ Free Bug Rectification will not involve any change request to the business logic/ functionality asked by the client.
- □ In case there are any changes made to the code or database structure or work developed by Techno Developers Group by the Client without knowledge of Gateway, the support contract would be deemed to have terminated. In case there were efforts spent by Gateway in coming to a conclusion for the same, they would be charged to the client and be billed at the rate of Change Requests.

12.   ASSUMPTIONS

- □ All the sections where "RTE" [Rich Text Editor] is required is to be mentioned by the client in the work scope sheet provided for the in the administrative panel screens.
- □ Client will have to provide the content and details to be kept on the system.
- □ If the system to be implemented on Dedicated Server, the Hosting and domain servers would be provided by the client.
- □ The effort is only for the integration of the payment gateway with the site "Page 1 & 2".
- □ Recognizing comeback users by means of cookies will be implemented. Please note that this method only works if the user has cookies enabled on their browser or system and only if the cookies are still maintained in history of the user computer when the user comes back to our site. If the cookies are disabled or have been deleted from the users' computer this option will be rendered useless.

13.   IMPORTANT NOTE

- □ The estimation is based on the current understanding of the requirement of the system.
- □ Designing for the System layout – Techno Developers Group will provide one layout as the suggested look of the application along with the document explaining the navigational flow. The client will need to confirm the layout suggesting the changes if required and there onwards the design will take shape.
- □ Browser compatibility: The System will be delivered in such a way, that it is compatible to Mozilla Firefox or Google Chrome. The RTE would be used in the Administration Part, Form where the admin, member and partner would see the instruction sections of respective pages.
- □ Screen Resolution: The minimum resolution to be supported by the System will be 1024 * 768 Pixels.
- □ The effort and cost estimated is only for the implement. Any third-party component (document uploading component) and server/ hardware required will be provided by the client/ISP.

14.   CHANGE MANAGEMENT

Any Changes required during or after the project duration have to be intimated to Techno Developers Group In-Charge through the order form through digital or hard copy which will be provided by Techno Developers Group. We would be doing the impact analysis of the same and intimate the effort and duration required if the changes are of extreme nature or if they fall out of the project scope or Bug Fixes warranted by Techno Developers Group. The rates provided by Techno Developers Group for the change request are valid for a period of 12 months from the commencement of the project or signing of this proposal whichever occurs first.

A change would be defined as those, which are not defined in the scope of work either in terms of addition, deletion and/or change in Functionality (Business Logic), User Interface, the database and/or any other such aspect of the system. Techno Developers Group will charge the work to be done on an hourly basis as defined and agreed by both parties. The charges for Change Requests would be Rs.450.00 an Hour.

15. DELIVERABLES

- Fully functional and tested System
  - Features as mentioned in the "Page 1 to 3" as of a project of **20 Working Days** as Offsite Development at TechnoDG Office Lab based on the manpower costing of 8 hours per day for one person.
  - Interim Delivery: The deliverables of interim delivery to be agreed by both client and Techno Developers Group from the scope of work for the project.
  - Documents: Admin Manual - The documents will be delivered to the client only in English Language
- Exact time frame for delivery can be discussed depending on the user requirements based on functionality selection.

Sl	Work	Particulars	Price
1	Implementation of the System	Features as mentioned under scope of work (Appendix 4) apart from the optional modules.	As quoted on Page 2
2	Support Period for 0-1 Month (Bug Fixing)	After deployment, should there be any bugs in the Application; Gateway will fix these bugs free of charge for the next **One month**. The Terms of Service are mentioned in Appendix 16.	Free
3	Support Period for over 1-12 Months (System Maintenance)	The warranty period of the system is twelve months from the issue date of the work order. Any corruption of files and scripts [Excluding Database] will be replaced with the existing one from Offline Back up.	Free
4	Change Request	All bugs reported after the period of initial 1 month of bug fixing will be considered as Change Requests and will be charged accordingly to the client. A change would be defined as those, which are not defined in the scope of work either in terms of addition, deletion and/or change in Functionality (Business Logic), User Interface, the database and/or any other such aspect of the system. TechnoDG will charge the work to be done on an hourly basis as defined and agreed by both parties. The details of the Change Request Management would be as defined in Appendix 14.	As mentioned in Change Management

16. TERMS OF SERVICE

Rights

Only license to use for one Admin user will be permitted. This web based application is identified as "NOT FOR SALE" and hence may not be sold or otherwise transferred for value or used for any purpose other than demonstration test or evaluation. THE APPLICATION CODE RIGHTS BELONG TO "TECHNO DEVELOPERS GROUP".

Package Includes:
1. Designing, Development & Implementation of the System described above.
2. One year maintenance of Files Corruption related issues excluding Database and updates as mentioned above for free.

Payment Terms:
- 1st Part =>> 60% of the full amount as advance along with the Work Order.
- Last Part =>> 40% of the full amount payable on implementation time.

Payment Mode:
- Our mode of payment is Demand Draft/Cheque/Online Transfer. Please transfer the payment in favour of "TECHNO DEVELOPERS GROUP" Payable at 'SILIGURI' Account No. 020805003207, ICICI Bank Limited, SILIGURI [IFSC Code : ICIC0000208].

Page 8 of 10...

G-0315, City Centre, Uttorayon, Siliguri, West Bengal, India – 734010 | Dial: +91 353 2576767 | Email: info@TechnoDG.com

Terms & Conditions:

- The quotation is valid if the contract is finalized within 30 days from the date of quotation.
- The quoted duration for the modules is for the first working demonstration of the prototype only. It does not include the delay in confirmation, approval or fine tuning requests. Extension of project duration due to the delay in client side confirmation, delivery of required documents by client, finalization of project or submission of testing report from client side will cause the project costing to be increased.
- Free twenty updates calls included in the quotation
- Those which are not included in the quotation will be treated as upgradation.
- Admission fee report will include only full admission fee payment details. No part payments, dues or difference amount payment can be recorded in this online system.
- Payment Gateway License of "Atom Technologies Limited" is integrated in the system with basic predefined features. Any changes in the existing gateway or client provided other gateway integration will incur extra cost which is subject to discussion.
- Change of design, change in action pages or process and functionality, logical alteration, changes affecting table structure and DB relationship of dynamic modules, changes in the website structure-colour-style, increasing the space, putting extra link or page enhancement of feature in dynamic system or new modules will be treated as upgradation. Upgradation is totally different than updatation and it's fully a chargeable matter. The charge of upgradation is subject to discussion.
- Small changes including -
  a) New fields inclusion
  b) Changes in field type
  c) Client/Server side validation (input)
  d) Design level modification
  - will be during the process of development can be adjusted as free of cost.
- New Phase for Fresh Application Entry, Extensions of admission session, regeneration of Merit Lists or Counselling are subject to discussion and shall involve extra cost.
- Each static page will contain maximum of one A4 size page containing minimum 10pt font size text using 'Verdana' font style. The page file extension will be '.html', '.php', '.asp'.
- The system will be hosted on shared server where the Memory & CPU resources of the server is limited (CPU Usage upto 5% of the shared server, I/O Usage upto 512 KB/s, IOPS upto 512, Virtual Memory Usage upto 1000 Mb, Entry Processes upto 20, Physical Memory Usage upto 512 Mb, Number Of Processes upto 100). If the system requires resource upgrade then the same may have to be shifted to Virtual Private Hosting with upgraded resources which costs extra and subject to discussion.
- Technical problem may cause the site's unavailability. Any kind of complain regarding the website, maintenance, web promotion and service has to be registered at http://helpdesk.technodg.com. The complain registration date and time will be treated as starting time of problem.
- Our Payment Term is described above.
- Any updates or bugs have to be reported within one month of implementation to get fixed. After that it will be a chargeable matter. The charge of the service will be subject to discussion.
- Server resources are provided under no-spam policy only. Any spamming attempt may cause discontinuation of services.
- All rates are in Indian Currency (for Indians). Taxes and levies extra as applicable.
- All sittings have to be arranged within Siliguri Jurisdiction.
- All disputes are subject to the exclusive jurisdiction of Siliguri, West Bengal, India.
- For other Terms refer to http://technodg.com/tos/

We hope that you will give us a chance to provide you our valuable services through designing and developing your Project. Thanking you and looking forward to the approval of the proposal at the earliest. For any further clarifications or details please feel free to contact us or visit our website www.TechnoDG.com.

Looking forward to serve you with our pristine services.
Please feel free to contact us in case you may require any additional information

Thanks for choosing TechnoDG. We appreciate your Business !!

- The renewal is for existing system only. Any customization or extension of service is not covered in the quotation.
- Cost is for Single Session only
- The system is hosted on shared server where the Memory & CPU resources of the server is limited (CPU Usage upto 5% of the shared server, I/O Usage upto 512 KB/s, IOPS upto 512, Virtual Memory Usage upto 1000 Mb, Entry Processes upto 20, Physical Memory Usage upto 512 Mb, Number of Processes upto 100). If the system requires resource upgrade then the same may have to be shifted to Virtual Private Server which costs extra and subject to discussion.
- Technical problem may cause the site's unavailability. Any kind of complain regarding the website, maintenance, web promotion and service has to be registered at http://helpdesk.technodg.com. The complaint registration date and time will be treated as starting time of problem.
- Server resources are provided under no-spam policy only. Any spamming attempt may cause discontinuation of services.
- Any updates or bugs have to be reported within one month of implementation to get fixed. After that it will be a chargeable matter. The charge of the service will be subject to discussion.
- All rates are in Indian Currency (for Indians). Taxes and levies extra as applicable.
- All sittings have to be arranged within Siliguri Jurisdiction.
- All disputes are subject to the exclusive jurisdiction of Siliguri, West Bengal, India.
- For other Terms refer to http://technodg.com/more/tos.html

We hope that you will give us a chance to provide you our valuable services on your Projects again. Thanking you and looking forward to the approval of the proposal at the earliest. For any further clarifications or details please feel free to contact us or visit our website www.TechnoDG.com.

Looking forward to serve you with our pristine services.
Please feel free to contact us in case you may require any additional information

Thanks for choosing TechnoDG. We appreciate your Business !!
