NATIONAL SERVICE SCHEME (NSS) UNIT
GOVERNMENT GENERAL DEGREE COLLEGE AT PEDONG

The National Service Scheme Unit of the college formally came into existence in the year 2017. The unit is an added sphere to the higher education system so as to make the students contribute to the community with their service whilst learning from books and beyond. The unit aims to make the students understand the community they live, identify the problems that exist in their community while trying to solve them ensuring their active participation while they do so. The NSS unit also focuses on developing the social as well as civic responsibility amongst the students. This is put into action by performing regular activities like cleanliness drives, tree plantation, seminars and awareness programs and a special camp held every academic year for a span of one week at the adopted village where students engage in depth with the village community to improve and help the adopted village and its members. The NSS unit looks forward to the view that by the end of their student career, the personality as well as character of the students will improve through their voluntary community services.

Extension Activities-

The NSS organises the annual special camp where NSS volunteers and other students at the college spend a week in an adopted village nearby the college premises. This camp plays a crucial role in integrating the students with the community through the activities of the camp. In the past few years, the NSS has organised three special camps in Kagey (2018-19) and Meron Gaon (2021-22), (2023-24). Throughout the week, these students work with the community in the selected village that directly contributes to the village. In the first camp for instance the students actively worked to construct the village pathway. Working alongside the village people, the students get a first-hand account of the everyday hardships of the people and how they navigate these systems to go about their lives. Awareness is instilled amongst the students which enable them to expand their understanding beyond the classroom. These camps also allow the students to form a bond amongst themselves and when they come back, they come back as a unit with a sense of belonging to both the place and the institution.
